WORK DONE & IMPACT REPORT

Medical Financial Assistance & Surgical Support Project
Documented beneficiary casework • 2026

REPORT STATUS

Prepared from the beneficiary request letters, hospital documentation and identity records supplied for this case file. The evidence confirms requests and case documentation; it does not by itself establish that every requested amount was disbursed or that every surgery was completed.

01 | Executive Summary

Bhat Foundation Welfare Society, Ompora, Budgam, maintains a community-welfare role that includes responding to urgent medical needs where treatment costs are difficult for low-income households to meet. The supplied case file documents multiple requests for financial assistance for surgery and treatment, including three requests specifically seeking support for TLH surgery and two additional surgical/medical cases.

5

documented case files

3

TLH requests

₹2.40 lakh

clearly stated English requests

2026

casework period

WHAT THE FILES SHOW

Beneficiaries approached the Foundation because medical treatment and surgery costs were beyond their stated means. The requests include written appeals, identity documentation and, in one case, an Ibn Sina Hospital short-stay/admission record. The documentation creates an auditable case trail for donor or internal review.

Documented assistance needs

- Three women are documented as seeking ₹45,000 each for TLH surgery: Shehzada, Mehbooba Akhter and Hafeza Bano.
- One case concerning Muhammad Akbar documents an eye-treatment request of ₹35,000 in English; a separate Urdu request from the same case file appears to cite approximately ₹60,000. The exact requirement should therefore be reconciled before approval.
- One additional surgery request from Ompora, Budgam seeks approximately ₹70,000 and is signed in the name of a beneficiary whose spouse is recorded as Mohammad Shaban.
- The five clearly stated English-request amounts total ₹2,40,000. This is a requested-assistance figure, not a confirmed disbursement figure.

02 | Project Profile & Work Done

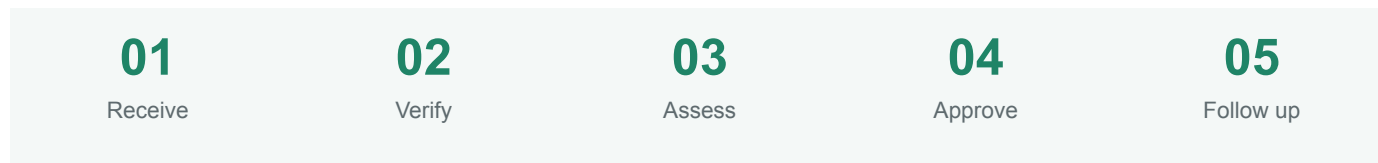

MEDICAL FINANCIAL ASSISTANCE & SURGICAL SUPPORT

Implementing organisation	Bhat Foundation Welfare Society
Location	Ompora, Budgam, Jammu & Kashmir
Intervention type	Case-based medical and surgical financial assistance
Primary need	Support for treatment/surgery where beneficiaries report inability to meet costs
Evidence received	Request letters, hospital record, identity documents
Primary outcome sought	Enable timely access to indicated treatment and reduce financial barriers

Work done documented in the case files

- Case intake through written beneficiary applications addressed to the Foundation.
- Recording of the medical need and the amount of assistance requested.
- Collection/presentation of identity documentation for beneficiary verification in the supplied files.
- Retention of hospital-linked evidence in the Muhammad Akbar case, including an Ibn Sina Hospital short-stay admission/informed-consent form dated 24 September 2026.
- Preparation of a case trail that can support internal review, donor due diligence, approval decisions and follow-up.

Standard assistance pathway represented by the documentation

The supplied documents clearly evidence the first three stages to varying degrees. Approval, payment and post-treatment completion should be supported by separate vouchers, sanction notes, hospital bills or discharge/follow-up records before being presented as completed outcomes.

03 | Impact at a Glance

5

cases documented

3

TLH cases

₹2.40L

clearly stated requests

1

hospital admission record

IMPACT AREA	DOCUMENTED EVIDENCE	EXPECTED SOCIAL VALUE
Access to treatment	Requests are linked to surgery/treatment advised by doctors in the supplied letters.	Reduces the risk that inability to pay becomes a barrier to medically indicated care.
Financial protection	Beneficiaries explicitly state that their income/resources are insufficient for the required treatment.	Can reduce catastrophic or distressing out-of-pocket pressure on low-income households.
Women's surgical care	Three separate TLH assistance requests are documented.	Supports timely access to gynaecological surgical treatment where clinically indicated.
Case verification	Identity records are supplied for three TLH beneficiaries; a hospital record is supplied for one additional case.	Creates a stronger basis for transparent assistance decisions.
Referral/continuity	The hospital document shows an active treatment pathway for one beneficiary.	Enables follow-up from assistance request to hospital care and, where documented, treatment completion.
IMPORTANT IMPACT REPORTING RULE Do not report the requested ₹2.40 lakh as money already spent, and do not report surgeries as completed unless the file is supplemented with payment and treatment-completion evidence.		

04 | Case Portfolio

CASE	BENEFICIARY / IDENTIFIER	NEED	REQUEST	EVIDENCE STATUS
01	Shehzada W/o Bilal Ahmad Mugloo Mirgund, Pattan	TLH surgery	₹45,000	Request letter + identity document
02	Muhammad Akbar Barzpora	Eye treatment / surgery; hospital care	₹35,000 in English request*	Request letters + hospital form
03	Spouse of Mohammad Shaban Ompora, Budgam	Surgery	Approx. ₹70,000	Request letter
04	Mehbooba Akhter W/o Imtiyaz Ahanger Habak, Pattan	TLH surgery	₹45,000	Request letter + identity document
05	Hafeza Bano W/o Ghulam Mohiuddin Gojar Humchipora, Khag	TLH surgery	₹45,000	Request letter + identity document

* The Muhammad Akbar case also contains an Urdu request that appears to cite approximately ₹60,000. The final assistance amount should be reconciled against the hospital estimate before any approval.

CASE 01 | Shehzada — TLH Surgical Assistance

Mirgund, Pattan • W/o Bilal Ahmad Mugloo • Female • DOB shown on supplied ID: 01/01/1988

₹45,000

requested assistance

TLH

stated surgery

1

request + ID record

Case narrative

The supplied handwritten application states that doctors advised the beneficiary to undergo TLH surgery and that a substantial amount would be required. The applicant describes limited income and an inability to afford the full treatment cost, and requests ₹45,000 in financial assistance.

Work done / case processing evidence

- Written request addressed to the Chairman, Bhat Foundation Welfare Society, Ompora, Budgam.
- Medical need and requested amount are clearly stated in the application.
- Identity documentation is included in the supplied case file and is consistent with the beneficiary name shown in the request.

IMPACT PATHWAY

If approved and disbursed against verified treatment costs, the assistance would be directed toward reducing the financial barrier to medically advised TLH surgery. The supplied documents do not establish surgery completion.

The Chairman,
Bhat Foundation Welfare Society,
Ompora, Budgam.

Subject:- Request for financial assistance
for treatment of T.H.

Sir,

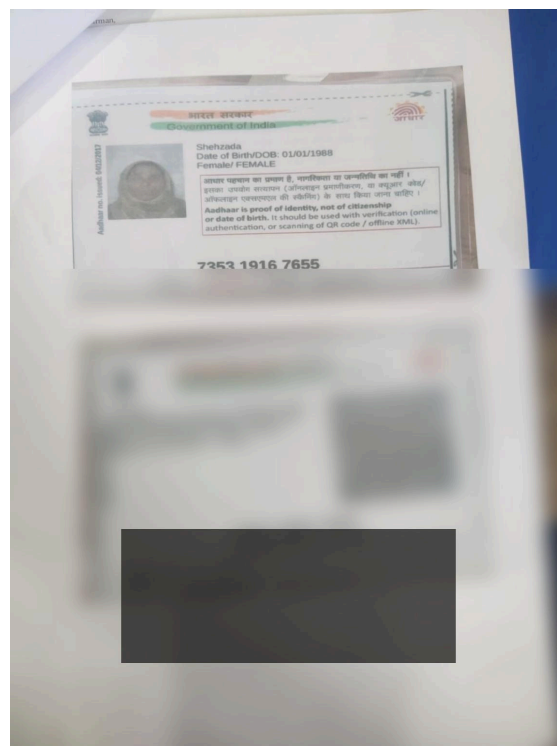

with great reverence, I would like to request you that the doctors have advised me to go for T.H. Surgery for which a huge amount is required.

Since I am very poor having limited source of income and cannot afford such a huge amount.

It is therefore requested that financial help/assistance to the tune of Rs. 45,000- may kindly be provided to me so that I may be in a position to treatment myself including surgery.

Yours faithfully,
Shahid Ali
W/o:- Roshal Ahmad Mughal
R/o:- Mirgund, Baramulla.

Beneficiary request letter — original evidence

Identity document — sensitive numbers redacted for this report

CASE 02 | Muhammad Akbar — Eye / Surgical Support

Barzpora • Male • Age 70 recorded on hospital form

₹35,000

English request

~₹60,000

Urdu note

24 Sep 2026

hospital record date

Case narrative

The case file contains an English request for financial assistance for eye treatment, including surgery, stating a requested amount of ₹35,000. A separate Urdu request in the same supplied evidence appears to mention a requirement of approximately ₹60,000 for surgery. An Ibn Sina Hospital short-stay admission/informed-consent form dated 24 September 2026 records Muhammad Akbar as a 70-year-old male and documents hospital-based operative/diagnostic care. The exact handwritten diagnosis is not sufficiently legible in the supplied image and is therefore not reproduced here.

Verification issue requiring resolution

AMOUNT RECONCILIATION

The case contains two different assistance figures (₹35,000 and approximately ₹60,000). Before approval or donor reporting, the Foundation should obtain one current hospital estimate/bill and record the final sanctioned amount.

Work done evidenced

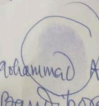

- Beneficiary submitted a written request explaining financial hardship and treatment need.
- Hospital documentation links the case to Ibn Sina Hospital and records short-stay admission/informed consent.
- The case has enough documentation to warrant a formal financial-assistance assessment, subject to reconciliation of the treatment estimate.

The chairman
Bhat Foundation Welfare Society,
Ompora, Budgam.

Subject :- Request for financial Assistant
for treatment of eyes.

Sir,
with great respect, I would like to
request you that the doctors have advised
me to go for surgery for which a
huge amount is required.
Since I am a poor man having a
limited source of income for livelihood
cannot afford the same.
It is therefore requested that financial
help/assistance to the tune of Rs. 35,000/-
may kindly be provided to me so that
I may be able to treat my eyes including
surgery etc.

Thanking you, Sir,

Yours faithfully,

Muhammad Asghar

Ibn Sina Hospital short-stay admission / informed-consent record

CASE 03 | Surgical Assistance Request — Ompora

Beneficiary identified in request as spouse of Mohammad Shaban • Ompora, Budgam

~₹70,000

stated requirement

1

written request

Surgery

stated need

Case narrative

The supplied handwritten application requests financial assistance for surgery and states that the doctors advised the applicant to undergo surgery requiring approximately ₹70,000. The applicant describes poverty and limited income and requests assistance so that treatment can proceed.

Work done / case documentation

- Application received and addressed to the Foundation.
- Medical need and approximate treatment cost recorded in writing.
- Household financial hardship is stated as the reason the treatment cost cannot be met independently.

DOCUMENTATION GAP

No identity document or hospital estimate is visible in the supplied material for this case. Before disbursement, the Foundation should attach identity verification, current medical advice and a hospital quotation/estimate.

The Chairman,
Bhat Welfare Society
Ompora, Budgam.

Subject:- Request for financial
Assistance for treatment.

Sir,

Respectfully it is to bring to your
kind notice that the doctors have
advised me to go for surgery which
requires approximately Rs. 70,000/-

Since I am very poor having a
limited source of income, cannot afford
the same.

It is therefore requested, kindly
provide me some financial help /
Assistance so that I may be in a
position to look after myself.

Thanking you,

Yours faithfully,

Mst. Fajav
W/o:- Mohammad Shaban

Beneficiary financial-assistance request — surgery requirement stated as approximately ₹70,000

CASE 04 | Mehbooba Akhter — TLH Surgical Assistance

W/o Imtiyaz Ahanger • Habak, Pattan

₹45,000

requested assistance

TLH

stated surgery

1

request + ID record

Case narrative

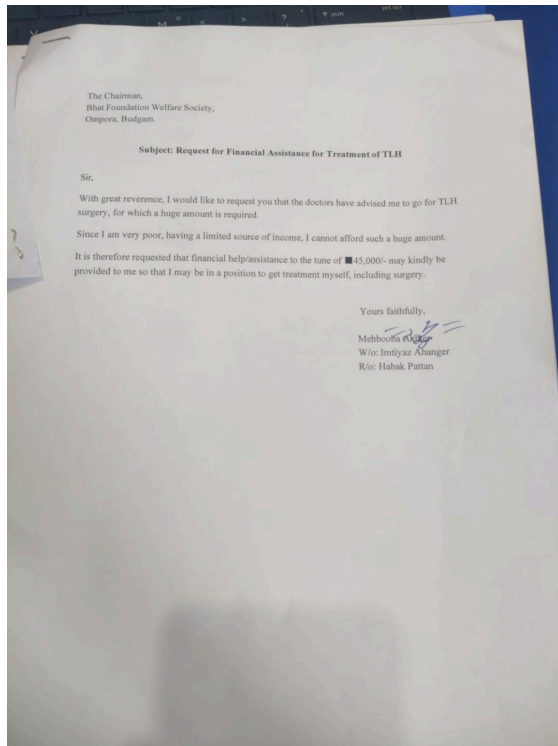

The typed application requests ₹45,000 in financial assistance for TLH surgery. The applicant states that doctors have advised the surgery, that a large amount is required, and that limited income makes the treatment unaffordable.

Work done / evidence

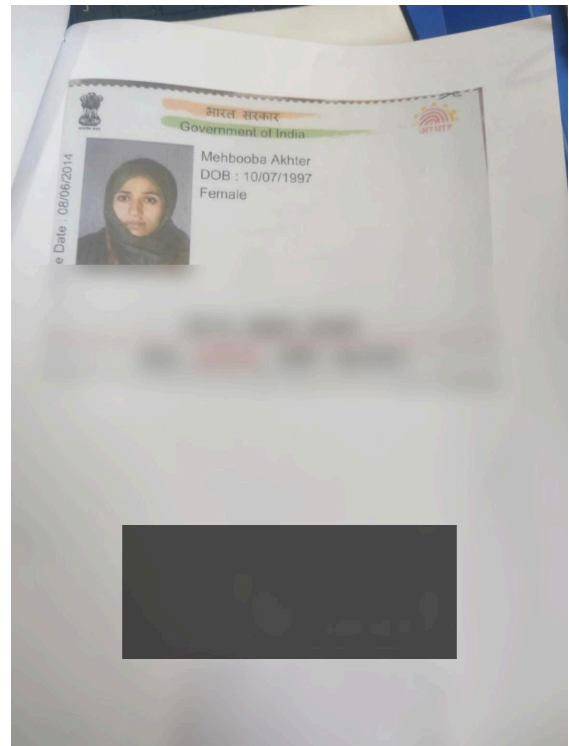

- Formal written application received by Bhat Foundation Welfare Society.
- Requested assistance amount clearly recorded as ₹45,000.
- Beneficiary identity documentation is included in the supplied case file.

IMPACT PATHWAY

The documented request addresses a direct financial barrier to surgery. Any completed-treatment impact should be added later using hospital bills, operative notes, discharge summary or follow-up confirmation.

Formal TLH financial-assistance request

Identity document — sensitive numbers redacted

CASE 05 | Hafeza Bano — TLH Surgical Assistance

W/o Ghulam Mohiuddin Gojar • Humchipora, Khag, Budgam

₹45,000

requested assistance

TLH

stated surgery

1

request + ID record

Case narrative

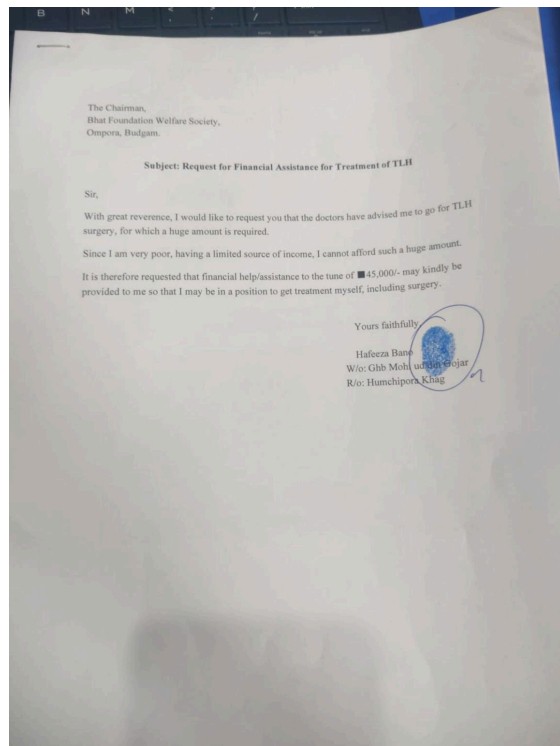

The supplied formal request seeks ₹45,000 in financial assistance for TLH surgery. The applicant states that doctors have advised surgery, that the treatment requires a substantial amount, and that poverty and limited income prevent the household from meeting the cost.

Work done / evidence

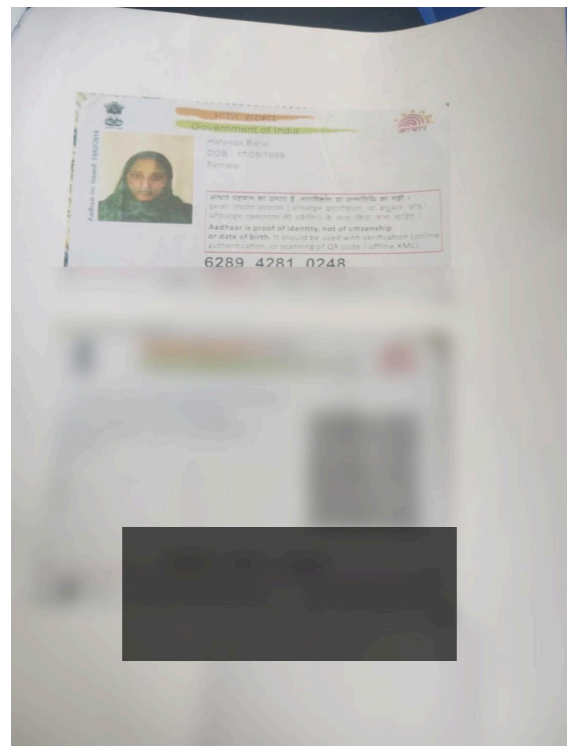

- Formal request addressed to the Chairman of Bhat Foundation Welfare Society.
- Treatment type and assistance requirement are clearly stated.
- Identity documentation is included in the supplied case file.

IMPACT PATHWAY

Subject to verification and approval, assistance can help remove the immediate cost barrier to medically indicated surgery. The supplied evidence does not independently confirm payment or surgery completion.

Formal TLH financial-assistance request

Identity document — sensitive numbers redacted

10 | Evidence, Safeguarding & Verification Notes

A strong medical-assistance report should distinguish between a beneficiary's request, a verified medical requirement, an approved grant, a payment actually made and a treatment outcome. The supplied file supports some of these stages but not all.

EVIDENCE TYPE	WHAT IS PRESENT	REPORTING TREATMENT
Beneficiary requests	Multiple signed/handwritten and typed applications	Can be reported as requests received.
Identity records	Identity documents supplied for the three TLH cases	Use for verification; avoid reproducing full ID numbers in donor-facing copies.
Hospital record	Ibn Sina Hospital short-stay/informed-consent form for Muhammad Akbar	Can support hospital linkage; exact diagnosis should not be inferred from unclear handwriting.
Payment evidence	No payment voucher/transaction record is visible in the supplied images	Do not state that the requested amounts were disbursed.
Treatment completion	No operative/discharge/follow-up proof is visible for all cases	Do not state that surgery was completed unless separately documented.

Recommended donor-file controls

- Assign a unique case ID to every beneficiary.
- Keep original identity documents in a restricted case file; use redacted copies in public or donor-facing reports.
- Attach the latest hospital estimate and doctor advice before sanction.
- Record approved amount, payment date, payment mode and recipient details in a controlled financial register.
- Collect hospital bill, operative/discharge document and follow-up confirmation where applicable.
- Record any balance amount borne by the family or another donor so the assistance trail remains transparent.

11 | Impact Narrative & Sustainability

FROM A REQUEST FOR HELP TO A DOCUMENTED PATHWAY TO CARE

The social significance of these cases lies in the gap between medical need and household capacity to pay. The applications repeatedly describe the same barrier: treatment is recommended, but the cost is beyond the family's stated resources. For a welfare organisation, a well-documented assistance process can convert an otherwise delayed or inaccessible treatment pathway into a traceable intervention.

What the intervention is designed to achieve

- Protect access to medically advised treatment for households facing financial hardship.
- Reduce the immediate financial shock associated with surgery and specialist treatment.
- Prioritise cases using documented medical advice, beneficiary need and verifiable treatment estimates.
- Create a transparent evidence chain from request → verification → sanction → payment → treatment outcome.
- Enable donors and institutional partners to understand not only how much was requested, but what changed for the beneficiary after support.

Suggested outcome indicators for future updates

**Cases
verified**

Count

**Assistance
sanctioned**

₹

**Payments
completed**

₹

**Treatments
completed**

Count

These indicators are intentionally presented as a reporting framework; the supplied case file does not provide verified final values for all four indicators.

12 | Conclusion & Documentation Checklist

The supplied records demonstrate a set of genuine medical-assistance requests involving surgery and treatment, including three TLH cases and two additional surgical/medical cases. The clearly stated English applications seek a combined ₹2,40,000. The case file provides useful primary documentation, but it should be supplemented with approval, payment and treatment-completion records before any final donor-impact claim is made.

DOCUMENTED WORK COMPLETED

Case intake • beneficiary applications • identity documentation for three TLH cases • hospital-linked documentation for one case • financial-need statements • case-wise assistance requirements.

Final case-file checklist

- ☐ Case ID assigned
- ☐ Identity verified and sensitive ID data protected
- ☐ Doctor's advice / diagnosis attached
- ☐ Current hospital estimate attached
- ☐ Assistance amount reconciled and approved
- ☐ Payment voucher / transaction proof attached
- ☐ Hospital bill / treatment completion proof attached
- ☐ Follow-up outcome recorded
- ☐ Beneficiary consent / privacy handling documented where required
